

COMPANY PROFILE

ABOUT US

Astute Business Certification is your professional partner for management system auditing. Through a network of experience auditors, Astute Business Certification can manage your journey through the ISO certification process from your stage 1 audits through to surveillance visits. Astute Business Certification can also manage transfer of your certification.

Our vision is to provide a professional, pragmatic service that provides value to your business.

If you would like to chat further to discuss how Astute Business Certification can assist, contact our office and one of our friendly Audit Managers will be in touch.

STEVE FITZPATRICK

COHSPROF MEIANZ

GRAD DIP (ACCID INV) | BOHS | DIPLOMA
ENVIRONMENTAL MANAGEMENT | LEAD AUDITOR
(HSEQ)

Experience

Steve has a construction background from the UK and Australia and has practiced as a safety consultant for the past 20 years working with construction, manufacturing, outdoor recreation and the arbour industry. Steve's experience is working with small to medium sized businesses and assisting them to achieve the standard required to work with tier one construction companies, mining and government contracts.

Recently Steve has held positions as HSEQ Manager for a civil construction company working within the oil and gas industry and a major Queensland landscape company. Whilst working for both these companies, Steve developed, implemented and facilitated both companies through ISO certification for safety, quality and environmental management systems.

Registration

Steve is a certified OHS professional with the Australian Institute of Health and Safety and a registered auditor with Exemplar Global (HSEQ). Both these registrations have specific qualification and experience entry requirements with workplace hours and professional development to maintain currency.

CERTIFICATION AUDITS

Astute Business Certification is member practice of Equal Assurance Pty Ltd (a JAS-ANZ certification body) providing ISO Management System certification including

- ISO 9001 – Quality Management
- ISO 14001 – Environmental Management
- ISO 45001 – Health and Safety Management

Through a network of experienced auditors, Astute Business Certification can manage your journey through the ISO certification process from your stage 1 audits through to surveillance visits.

Astute Business Certification can also manage the transfer of your certification.

OTHER AUDITS

Management Systems

Management System Audits are conducted against the relevant International or Australian Standards that may be applicable. Audits may include

- System audits to ISO standards
- Preparation for ISO Certification / Gap Analysis
- 3rd party audits for tenders and licences including QLD government asbestos and demolition licences
- Contractor Audits

Legislative Audits

It is essential to ensure your systems and processes are compliant with current legislation. Through consultation with the client, a specific audit can be conducted to review current systems and processes against legislative requirements.

Process Audits

As part of maintaining a functioning management system, specific processes, and importantly the link between processes, can be audited. These audits are conducted at the coal face and may identify any disconnects between the management system and the way work is conducted. Process audits include HR, training, production, monitoring and review.

REFERENCES

“: Steve was very easy to work with. Was very impressed with his professional but understanding approach to a start up company. Will definitely be using his services ongoing.

Russell Witheridge, Managing Director Better Traffic Solutions

“..we had our yearly surveillance audit for Quality ISO 9001:2015, Environment ISO 14001:2015 & Safety AS/NZS 4801:2001. Prior to this audit and all previous, I have engaged Steve to review and discuss the way we are doing things. Compliance is not always an 'exciting space' & if all you focus on is the detail, one can lose sight of the 'why' you are doing it in the first place ... 'continuous improvement'. Steve has a friendly and remarkably practical approach to mentoring, auditing and training. This time, Steve assisted in creating new audit tools that are both practical and compliant. Our result this time = zero non-conformance's and three observations. Thanks Steve.”

Simon Passlow Director / General Manager Downes Group Pty Ltd

He has helped our business implement many new safety processes, a successful new safety system and given us the tools to create better safety culture in the workplace. All of which commenced from auditing our workplace and safety systems.

Steve not only has an incredible wealth of knowledge around workplace safety but also a practical way to assist with implementation of systems and procedures which makes the process of improvement in this area less intimidating.

Brett Mills; Dealer Principal, Ken Mills Toyota
